Hacking Solution for Governmental Interception
End User Questionnaire

Product: Remote Control System

This questionnaire has been created to better understand your technical and operational needs regarding the HackingInterception Solution.

Your organization's name: UGANDA POLICE FORCE

Contact details of the leader of this initiative

Name: MUJUNGI · K. MARK

Email address: Kal2thethird@yahoo.com

Your organization's profile:

- ☐ Law Enforcement Agency
  - ☑ Anti Corruption
  - ☑ Anti Narcotics
  - ☑ Anti Fraud
  - ☑ Anti Terrorism
  - ☑ Judicial Police
  - ☑ Criminal Police
  - ☑ Organized Crimes
  - ☑ Other:
- ☐ Intelligence
  - ☑ National Security
  - ☑ Counter intelligence
  - ☐ Military Intelligence
  - ☐ Other:

Your Use Cases:

- ☑ VoIP interception
- ☑ Chat interception
- ☑ Social network
- ☑ Mail/Messages
- ☑ Web browsing
- ☑ Document capture
- ☐ Key logger
- ☐ Positioning/Tracking
- ☐ Microphone activation
- ☐ Camera Activation
- ☐ Target Profiling
- ☐ Intelligence (Data Correlation)
- ☐ Other:

Your Targets profiles:

- ☑ Known targets (Internal operations)
- ☑ Unknown targets
- ☑ Reachable targets
- ☑ Traveller targets
- ☑ Social targets
- ☑ High skilled targets

Your Target devices

- PC/Laptops
  - ☑ Windows
  - ☑ MacOS
  - ☑ Linux
- Mobile/Tablets
  - ☑ Android Phone or Tablet
  - ☑ iOS (iPhone/iPad)
  - ☑ BlackBerry
  - ☑ Windows Phone

Most used Target's Social Applications:

- ☑ Facebook
- ☑ Twitter
- ☐ Skype
- ☑ Whatsapp
- ☐ Wechat
- ☑ Line
- ☐ Telegram
- ☐ Other_____

Attack scenarios:

Question	Answer *Please explain as needed.*
Can yougain physical access to target devices (i.e., at his home, office, at the border, etc.)?	Possible
Can you be physically close to target (i.e., in the same hotel, airport, restaurant, coffee-shop or house)?	It is possible

  - ☐ National Security
  - ☐ Counter intelligence
  - ☐ Military Intelligence
  - ☐ Other: _____

End User Use Cases:

- ☑ VoIP interception
- ☑ Chat interception
- ☑ Social network
- ☑ Mail/Messages
- ☑ Web browsing
- ☑ Document capture
- ☑ Key logger
- ☑ Positioning/Tracking
- ☑ Microphone activation
- ☑ Camera Activation
- ☑ Target Profiling
- ☑ Intelligence (Data Correlation)
- ☑ Other: _____

End User's Target profiles:

- [x] Known targets (Internal operations)
- [x] Unknown targets
- [x] Reachable targets
- [x] Traveller targets
- [x] Social targets
- [x] High skilled targets

End User's Target devices

- PC/Laptops
  - [x] Windows
  - [x] MacOS
  - [x] Linux
- Mobile/Tablets
  - [x] Android
  - [x] iOS (iPhone/iPad)
  - [x] BlackBerry
  - [x] Windows Phone

Most used Target's Social Applications:

- [x] Facebook
- [x] Twitter
- [x] Skype
- [x] Whatsapp
- [x] Wechat
- [x] Line
- [x] Telegram
- [ ] Others _____

End User's attack scenarios:

Question	Answer *Please explain as needed.*
Can the End User gainphysical access to target devices (i.e., at his home, office, at the border, etc.)?	Yes it is possible
Can the End User beclose to target (i.e., in the same hotel, airport, restaurant, coffee-shop or house)?	Possible
Please describe the type of information the End User can know about the targets (i.e., email, phone number, device type, etc.)?	All the info. ie email, device type, phone numbe
Can the End User have cooperation with an Internet Service Provider (ISP)?	Yes

	Question	Answer *Please explain as needed.*
1.	Does the End User have an approved budget for this project? What is the estimation?	No approved budget
2.	Do you have specific requirements from the End User?	Yes lawful interception
3.	What would be the desired date to begin the project? (kick-off)	Open
4.	What would be the desired date to have the solution up and running for production of data?	Open
5.	How many target/devices the End User wants to monitor simultaneously? (50, 100, 500, 1000)	100
6.	Please describe the End Userinternal organization:	Users: Analysts: IT Security skilled: N/A Tactical units: Other information:
7.	Who will be responsible to supply hardware equipments: servers, switch, firewall, etc.?	Hillcom East Africa Ltd.
8.	Could you share with uswhat type of Monitoring Centerthe End User run?	N/A
9.	Explain your and your End User experience with other hacking solutions or trojan technologies.	N/A
10.	Explain your and your End User experience using exploits or dealing with exploit markets.	N/A
11.	Explain your and your End User experience in using Social Engineering or tools for Social Engineering.	N/A
12.	What IT security training your End User has and what does the team require?	Advanced ICT Kit training
13.	Please explain what the End User desires to see in a demonstration or in a Proof-of -Concept.	A functioning System
14.	Will the project require a tender process or will be a direct acquisition?	Tender is possible

15.	Expected duration of the acquisition process at End User organization.	6 months.

Please provide any other information that will help Hacking Team completely understand the project or potential project and any limitations or special circumstance you foresee in executing the project.
